2. Appointees will be expected to do more
than one job.

b. Centralization of SI Clearances

1. Inman was not satisfied with DCI's call.
Would still like it discussed at NFIB.

2. Specific objections - Privacy issue met by
[REDACTED] being already listed on Congressional record.
"Lack of Purpose" met by DCI's view of better
management and control. Concern about all NSA
personnel being listed in CIA can best be answered
by providing our care and protection of all files
like [REDACTED]

c. NSA objections to Draft DCID on Compartmentation

Maybe you had better take the initiative and, recognizing
NSA's registered objections, mention the strong indications
that this is the way the DCI wants to go. Ask for Inman's
support.
